

Plaisir et Confiance

Le 7 février à Berlin, l'ANEEFEL et ses partenaires ont présenté leur projet de charte nationale d'une production éthique et d'une mise en marché respectueuse des fruits et légumes devant une cinquantaine de personnes. Stéphane GORI, le président de la nouvelle association fédérant le Melon de Cavaillon, la Fraise de Carpentras, la Coordination Rurale, l'AOP Raisin de Table, l'AOP Cerise de France et le Chasselas de Moissac a souligné : « le souci est de redonner confiance alors que les évolutions sociétales impactent profondément la filière agricole en général ». Pour conclure l'événement, M. ROUCHAUSSÉ, président de Légumes de France, a annoncé son soutien au projet ainsi que le souhait de rejoindre l'association en tant que membre associé ce qui porte à huit le nombre d'organisations partenaires de la démarche.

SIQO
